

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (cancelled)

Claim 2 (currently amended): A method according to claim 14, wherein said standardized ~~extract according to claim 1 consisting~~ powder consists essentially of by weight 50-80% of Emblican A, Emblican B, Pedunculagin and Punigluconin.

Claim 3 (currently amended): A method according to claim 14, wherein said standardized ~~extract according to claim 1 consisting~~ powder consists essentially of by weight: 20-35% Emblicanin A, 10-20% Emblicanin B, 15-30% Pedunculagin and 3-12% Punigluconin having average percentage deviations of not more than 10%.

Claims 4-10 (cancelled)

Claim 11 (currently amended): A ~~composition according to claim 10~~ method according to claim 14, wherein the content of said standardized ~~extract~~ powder is about 90-99.7% by weight.

Claim 12 (currently amended): A method according to claim 14, wherein said composition ~~according to claim 10 further comprising a~~ comprises said standardized powder as the sole skin-whitening agent ~~different from said standardized extract.~~

Claim 13 (cancelled)

Claim 14 (currently amended): A method of lightening or whitening skin color comprising topically administering a topical composition ~~according to claim 11~~ to human skin in a sufficient amount and for a sufficient amount of time to visibly lighten or whiten the skin, said composition comprising a cosmetically or pharmaceutically acceptable carrier and a light colored standardized powder consisting essentially of

over 40% by weight of Emblicanin A, Emblicanin B, Pedunculagin and Punigluconin, and not more than about 1% by weight of flavonoids.

Claim 15 (currently amended) A method according to claim 14, wherein said standardized ~~extract according to claim 1 wherein the~~ powder has a content of Rutin is of less than 0.01% by weight of Rutin.

Claim 16 (currently amended): A ~~standardized extract~~ method according to claim ~~2~~ 15 wherein the content of Rutin is less than ~~0.01%~~ 0.001% by weight of Rutin.

Claim 17 (currently amended): A ~~standardized extract~~ method according to claim ~~3~~ 15, wherein the content of Rutin is ~~less than 0.01%~~ 0.01 to 0.001% by weight of Rutin.

Claims 18-20 (cancelled)

Claim 21 (currently amended): A ~~standardized~~ method according to claim 14, wherein said
~~extract according to claim 1 having powder has~~ an absorbance (optical density) of 0.8 maximum
in the UV region at wavelength 350 nm.

Claim 22 (currently amended): A ~~standardized~~ method according to claim 14, wherein said
~~extract according to claim 1 having powder has~~ an absorbance (optical density) of 0.3 maximum
in the UV region at wavelength 410 nm.

Claim 23 (currently amended): A ~~standardized~~ method according to claim 14, wherein said
~~extract according to claim 1 having powder has~~ an absorbance (optical density) of 0.1 maximum
in the UV region at wavelength 470 nm.

Claim 24 (currently amended): A method according to claim 14, wherein said standardized
~~extract according to claim 1 having powder has~~ an absorbance (optical density) of 0.08 maximum
in the UV region at wavelength 530 nm.

Claim 25 (currently amended): A method according to claim 14, wherein said standardized
~~extract according to claim 1 having powder has~~ an absorbance (optical density) of 0.09 maximum
in the UV region at wavelength 590 nm.

Claim 26 (currently amended): A method according to claim 14, wherein said standardized ~~extract according to claim 1 having~~ powder has an absorbance (optical density) of 0.02 maximum in the UV region at wavelength 650 nm.

Claim 27 (currently amended): A method according to claim 14, wherein said standardized ~~extract according to claim 1 having~~ powder has maximum absorbances (optical density) in the UV region of 0.8 at wavelength 410 nm, 0.1 at wavelength 470 nm, 0.08 at wavelength 530 nm, 0.09 at wavelength 590 nm, and 0.02 at wavelength 650 nm.

Claim 28 (cancelled)

Claim 29 (original) A method of lightening or whitening or even toning skin color according to claim 14, said composition further containing one or more sunscreen agents different from said standardized ~~extract~~ powder.

Claim 30 (original): A method of lightening or whitening or even toning skin color according to claim 14, said composition further containing one or more antioxidants different from said standardized ~~extract~~ powder.

Claim 31 (currently amended): A method of lightening or whitening or even toning skin color according to claim ~~14~~ 12, comprising one or more antioxidants and sunscreen agents different from said standardized ~~extract~~ powder.

Claim 32 (currently amended): A method of lightening or whitening or even toning skin color according to claim 14 3, comprising one or more skin lightening or whitening or toning agents different from said standardized ~~extract~~ powder.

Claim 33 (new): A method according to claim 3, wherein said average percentage deviations are not more than 5%, and Rutin is present in the standardized powder in an amount of 0.01 to 0.001% by weight.

Claim 34 (new): A method according to claim 14, wherein the human skin is affected with at least one of lentigo seniles, chloasma, hyperpigmentation caused by photosensitizing products cicatrical brown spots, freckles, skin Dischromia, redness due to venous disorders, and UV induced pigmentation.

Claim 35 (new): A method according to claim 14, wherein said human skin is that of an Asian or Hispanic person.

Claim 36 (new): A method according to claim 14, comprising administering said topical composition at least one per day for at least two weeks.
